

November 4, 2014

Welcome to Sensenbrenner Hospital

We have provided Alcohol Hand Rub at all public entrances. Please wash your hands on entering and exiting the hospital.

Face masks are available to be applied if you have a cough to reduce the risk of transmission.

If you have traveled to Africa in the last month or come in contact with an Ebola patient please apply a mask and report to the ER department for further instructions.

We thank you for your assistance in reducing the risk of infections.
