Sensenbrenner Hospital is proud to be an Equal Opportunity Employer. We welcome and encourage applications from all qualified individuals including women, indigenous peoples, persons with disabilities, and members of visible minorities. Accessibility accommodations are available upon request to ensure support throughout the recruitment process, employee onboarding, and employment experience. Please do not hesitate to ask should you require any accommodations

*Eligible candidates will have access to hospital-specific incentives if they do not meet the qualifications for Ministry incentives.

Key Responsibilities

- Conduct echocardiographic examinations and accurately capture images and data.
- Analyze and interpret echocardiogram results to assist cardiologists in diagnosis and treatment.
- Prepare and maintain patient records, ensuring accurate documentation of procedures and findings.
- Operate and maintain echocardiography equipment, ensuring it is in optimal working condition.
- Provide compassionate patient care, explaining procedures and addressing any concerns.
- Collaborate with medical staff to provide timely and effective patient care.
- Stay updated with advancements in echocardiography techniques and technology.

Qualifications

- Must possess a certificate from a recognized Diagnostic Cardiac Sonography program or equivalent.
- Current registration with the College of Medical Radiation and Imaging Technologists of Ontario is required.
- Strong knowledge of cardiovascular anatomy, physiology, and pathology.
- Ability to work independently and as part of a team.
- Strong communication and interpersonal skills.
- Commitment to providing compassionate and patient-centered care.
- Proficiency in both English and French is preferred.
